

# Career Discovery Groups

**“Our mentor took the time to get to know each of us. Being part of a small group made me feel like I belong at school and that I had a supportive community.”**

—Maritza, CDG participant

Career Discovery Groups (CDG) offer you an opportunity to explore major and career possibilities and make academic choices for future success. Guidance from graduate student mentors will help you learn to navigate the research university and use campus resources. Interaction with faculty and advisors will help you gain focus.

For questions, please contact:
